WEDNESDAY, NOVEMBER 14, 1866.

In Franklin county, on Saturday, the Republicans held a special election among themselves to determine whom their representatives in the Legislature should support for United States Senator. The result was largely in favor of Gov. CURTIN. Mr. STAMSBURGH, some time since, publicly expressed his preference for General CAMERON. Whether the instructions he has received will change his purpose we are not informed.

In Philadelphia, it is stated, that Mr. CONNELL, avowedly for General CAMERON, will have the pressure of public meetings brought to bear upon him, and that a majority of the Republicans of his district will sign their names to a request in the same behalf.

THE Presidents of the several Colleges in Illinois recently held a sort of convention in which the interests of education, especially as connected with those institutions, was discussed—as the introduction of shorter courses for certain practical purposes, the instruction of young men and women in the same schools, College amenity and intercourse, the propriety of a joint application to the Legislature for aid to existing Colleges, and the Agricultural College Fund granted by Congress. Considerable interest has been excited all over the State by this meeting.

THE Richmond *Times* consoles itself under defeat with the idea that we cannot amend the Constitution without the consent of the Rebel States. *Ten*, they say, will defeat it, and they can now count *fourteen*. This is in accordance with the Johnson theory, which would have disabled us from carrying on the war, and is now invoked to prevent us from either punishing the convicts or securing our selves. We must now have *their* consent, it seems, for either of these purposes. Could anything be more refreshingly cool?

THE Buffalo *Express* states that on Friday an elderly gentleman named Sheldon, said to be a retired Banker, from Albion, Mich., was found about noon dead in his room at the Tremont House, at Suspension Bridge. The attention of the inmates of the hotel was attracted to his apartment by the smell of gas escaping from it, and on forcing the door open Sheldon was found dead, and the room filled with gas, which it appeared he had neglected to turn off.

ILLINOIS journals are urging the Legislature of that State, at its coming session, to prohibit the consolidation or combination of competing railroads. The design is to cheapen freights on grain coming east. Better get up a manufacturing interest in the West and Northwest that will consume much of the grain near the spot of production.

AT Louisville, on Saturday last, the remains of General Rodger W. Hanson, who fell in the Confederate service, in the battle at Stone River, were received with great public pomp, a large portion of Morgan's cavalry being again on horseback. On Sunday there was a funeral oration, a procession and imposing ceremonies at the grave.

SUCH is the growing desire for instruction among the colored people in Washington, that over 5,000 are daily in attendance at the schools in operation there. In the normal school for the training of teachers and Ministers of the gospel who are to go south among their own people, there are nearly one hundred members.

THE Chicago *Tribune* insists that Congress shall impeach and depose the President. Considering that even a majority has not been found to resist manfully the insolent encroachments of the President, it seems absurd to expect of them the harder task of arraigning and convicting him for his offences.

THE Trustees of the State Lunatic Asylum at Harrisburg have raised the price of board for patients to $3.50 per week for the counties; $3.00 for townships, and $3.50 as the lowest rates for private patients. This increase was, of course, induced by the advanced costs of provisions and attendance.

A SCHOOL for the education and training of the sons of slain patriots, established four years ago at Deposit, Delaware county, New York, by Colonel and Mrs. Young, was last winter taken by the Legislature under the patronage of the State. It is now in a flourishing condition.

GEN. B. F. BUTLER is farther illustrating his versatility by engaging as a lecturer before literary societies. The Brooklyn (N. Y.) Fraternity Course will be opened by him with a lecture on the "Usurpations of Executive Power, and the Constitutional Remedy therefor."

MAJ. GEN. FRY, late Provost Marshal General, has been assigned to duty in California, and has sailed. So far, well; but it would have been much better had he been sent a good deal farther at least four years ago.

THE Twenty-ninth Annual Meeting of the Pennsylvania Anti-Slavery Society will be held in the city of Philadelbhia, in the Hall of the Franklin Institute, on Thursday and Friday, November 22d and 23d.

The Baltimore Police Trouble—Judge Bartol Sustains Gov. Swann.

BALTIMORE, Md., November 13.—Judge Bartol has just rendered his decision in the habeas corpus case. He sustains the power of Gov. Swann to remove the Commissioners of Police. There was great cheering in the court room on the announcement of the decision. His decision reviews the whole case. He says that the order of Judge Bond, of the Criminal Court, that the parties be held to bail, and in default to be committed to keep the peace against the Police Commissioners, and not to seek to exercise any of the functions of Police Commissioners until their claim to said office should be established by the courts, was wholly unwarranted, and that the judge of the Criminal Court had no authority to issue such an order. He reviewed the code in regard to the Police Commissioners, and decided that it gave the Governor entire power in the matter; that if, in his judgment, Messrs. Woods and Hinds had been guilty of official misconduct, the law gave him power to remove them and appoint successors; that at the time Messrs. Valiant and Young were arrested they had been truly and lawfully appointed Police Commissioners; and that, clothed with the commission of the Governor, they were then truly in office and empowered to rightfully exercise all the functions of the same, in place of Woods and Hinds, who had been removed and had been officially notified of the removal. The action of the Governor was final, as much so as if those Commissioners had been removed by the Legislature, and from his action there could be no appeal.

Whilst the decision of Judge Bartol fully sustains the action of the Governor, and condemns that of the Criminal Courts, in virtually granting an injunction against Messrs. Young and Valiant, by the order issued and discharged them from the custody in which they were held in virtue of the commitment. In such order the Judge decided that it was competent for the Criminal Court to entertain the charge alleged against Young and Valiant of conspiracy to break the peace, by forcibly taking possession of the police stations, and other property, held by Messrs. Woods and Hinds. Such a charge was an indictable offence, and upon that charge they were properly held to bail. Judge Bartol said he would issue an order for the immediate discharge of Sheriff Thompson, and in the case of Messrs. Young and Valiant he discharged them from custody under the illegal order of Judge Bond, restraining them from seeking to exercise the functions of their office as Police Commissioners, but as to the other charge of conspiracy to break the peace, he would require them to enter their own recognizances to answer the charge before the proper court.

Incidents Attending Maximillian's Departure—Ill Feeling Between Bazaine and Casteinau.

NEW YORK, Nov. 13, 1866.

A correspondent writing from the City of Mexico under date of October 20th, gives us the following interesting incidents attending the Emperor Maximillian's departure from the Capital after his abdication: A few leagues from this city, on his way to Orizaba, Maximillian met the Captain of the Austrian frigate, lying at Vera Cruz, on his way to the Capital. His Majesty permitted the Captain to continue his journey, but ordered him to remain in this city but one day, and then to return direct to Vera Cruz, as he (Maximillian) intended to embark with him. Befor quitting Chepultepec the servants at that Castle were all paid off and discharged, the baggage and personal property of His Majesty packed and prepared for removal, and some of it dispatched to Vera Cruz, and horses, carriages, &c., were disposed of, but all this was done so quietly that although the facts became known, still no one for a moment surmised that Maximillian intended to quit his Empire. Even the Princess Yturbide, who has charge of the young Prince, and has apartments at the Palace, was uninformed of his departure until the day before it took place.

Having perfected his arrangements for departure, his Majesty sent for Marshal Bazaine and gave him a verbal appointment of the Regency, and the Ministry were notified of the fact, and ordered to report to and consult with him as the Regent ad interim. His notification came like a thunderclap upon the Cabinet who at once repaired to Chepultepec to protest against the act, but they were refused an audience or any explanation, whereat they unanimously resigned their portfolios, but Bazaine smoothed the matter over with them, inducing them to retain their positions for the present.

At six o'clock on Sunday morning, the 20th instant, he sprang into his saddle and at the head of his escort passed out of his castle gate and bade adieu to the cares, anxieties, pleasures and perplexities which he had encountered in his noble but vain endeavors to regenerate the Mexican people. On Friday it became known that the Emperor intended going to Orizaba. As soon as this was ascertained, the Liberals dispatched trusty messengers to the Commander of the Liberal forces near San Luis Potosi and to Porfirio Diaz, commanding Oxaco, notifying them of the intended Royal journey and detailing a plan for his capture, by parties of two thousand strong, accompanied with a battery of light artillery which were to be sent with all speed to intercept the Emperor between Puebla and Paso del Macho.

The Emperor was escorted only by four hundred cavalry, and if a proper position should be taken, the Liberals could easily destroy or capture this little force, and by carrying Maximilian prisoner to the mountains, force him to abdicate. So certain were the Liberals of success, that bets were offered with odds of two to one, that, before the Saturday following, Maximilian would either be killed or taken prisoner. But the Liberals at the north had too long a distance to traverse before reaching the road taken by his majesty, and Porfiero Diez could not pass several French and Austrian posts which lay in his way, without fighting, and consequently the scheme came to naught. Castlenau engaged but little in this Mexican business, and Bazaine gives him to understand that a French field marshal outranks a simple aid-de-camp, and treats him accordingly. Castlenau attempted to question the marshal upon the condition of affairs, but Bazaine tartly replied that he was not here as instructor of subordinates. To-day Bazaine is making new contracts for it indicates, his troops were to [illegible] longer than June next.

THE FENIAN TRIALS.

Trial of Thos. School Postponed—David Whelan on Trial.

TORONTO, Nov. 13.—The Court resumed its sittings at ten o'clock this morning, Hon. Justice John Wilson presiding. Thomas School was the first placed in the dock, and manifested the most stoic indifference to the position in which he was placed. The prisoner's counsel put in an affidavit certifying that two witnesses were absent, who, it was believed, would swear that the prisoner was carried into Canada in a state of intoxication, against his will, and another witness who would swear that the moment the Fenians left, he threw down his arms, which they had forced him to take up. The Crown allowed the affidavit, and the case was postponed.

Daniel Whelan was next placed in the dock. He is a man of apparently about twenty years of age. When questioned by the Clerk of the Court, he stated that he was not ready for his trial.

Mr. McKenzie—It is my intention, my Lord, to advise the prisoner to challenge the array, but I am not prepared to go on with the case.

Hon. J. H. Cameron—You might have been ready. The trial was fixed for this day, and must go on in the absence of any proper reasons for putting it off.

Mr. McKenzie—I am going to challenge the array on the grounds that they were not selected according to the provisions of the statute for selecting jurors and juries.

Counsel then stated at length the grounds for challenge.

Hon. J. H. Cameron—I submit, my Lord, that under the law at present in force in this country, my learned friend has no right to challenge the array upon the grounds stated in the objections. I therefore ask you to rule against it.

A long and elaborate argument here ensued between the counsel for the Crown and Mr. McKenzie, who insisted that the Crown had only one course to pursue to demur or traverse, whilst Mr. Cameron stated that they would do neither one or the other.

His Lordship—I believe my learned brother, the Chief Justice, is at present in town. I should like to consult with him before I give judgment. My present impression is against the challenge.

At 12 o'clock His Lordship adjourned the Court till 2 P. M.

The court resumed its sitting at 2 o'clock, when a long discussion took place respecting the question raised by Mr. McKenzie. His Lordship decided against the challenge and the court adjourned at six o'clock.

Mr. McKenzie intends, to-morrow, to move to quash the panel and will pursue the same course in each future trial.

THE BALTIMORE COMMISSIONERS.

Proclamation by the New Board.

BALTIMORE, November 13.—The new Police Commissioners this afternoon served another legal notice on the old Board of Commissioners to surrender all property in their charge, and also notified Mayor Chapman to attend a meeting of the board at five o'clock; subsequently they issued the following:

COMMISSIONERS OF THE BOARD OF POLICE, *Baltimore City, No. 1 North street, Nov. 13, 1866*:—The Marshal other officers of the Police of Baltimore city, and all the members of the existing police in said city, are hereby strictly ordered and requested not to obey any orders that have emanated from the late Board of Police of said said city since two o'clock Tuesday afternoon, or any orders that may emanate from said late beard hereafter. The undersigned have now entered upon the performance of their duties as Commissioners of Police, and there is no other authority which can lawfully act as a Board of Police in said city. Pesons interested are required, at their peril, to obey this order.

(Signed.)
JAMES YOUNG,
THOMAS VALIANT,
Police Commissioners.

Mayor Chapman did not accept the invitation of the new Police Commissioners to attend their meeting this evening, but it is probable that he will do so to-morrow.

Marshal Carmichael and his deputy together with the detectives belonging to the force, have responded to the summons of the new Commissioners, and Marshal Carmichael will report to the new Board for orders to-morrow morning.

The new Commissioners have announced that it is not their intention to make any changes in the present force, except in cases of misconduct and unfitness, and propose to accept the services of all the members of the old force who are willing to do duty under them.

It is not known what course the old board will now pursue, whether they will accept the situation and regard themselves as lawfully displaced, or further contest the question before the courts, is not known. Should they refuse to surrender the property, funds, &c., held by them as commissioners, the board will resort to a mandamus.

The present position of this affair causes no excitement, and all parties seemed disposed to regard the decision to-day as a final settlement of the difficulty.

FROM WASHINGTON.

Advices from Japan—Suppression of Rioters—Appointment of Postmasters—Grant's Order, No. 44, Not Revoked.

WASHINGTON CITY, November 13, 1866.—The Navy Department has received dispatches from Acting Rear Admiral Bell, dated U. S. Flagship Hartford, Yeddo Bay, August 31. Accompanied by the Wyoming he, in July, proceeded to Osaca, a treaty port, which it was stipulated should be opened on the first of January, 1868. The Tycoon was believed to be opposed to its opening, and the Admiral anchored there for the purpose of showing those vessels, but had no intercourse with the shore. He subsequently found at Yokohama, English, French and Italian men of war. The number of armed ships of various nationalities was thirteen.

Gen. Van Valkensburg, the American Minister, had reached Yeddo with a guard of honor, consisting of all the marines of the squadron. The Admiral says, in this connection, that the English Minister is accompanied, whenever he appears in public at Yeddo, by a guard of thirty English soldiers, and that the [illegible] Minister has a guard of more than one [illegible] fusileers. The Admiral says as soon as [illegible] business is finished he [illegible] the Wachusett to Hong Kong, her previous destination. No information had been received of the movements and whereabouts of the Shenandoah. The shore ship Supply was at Hong Kong, where she was discharging a part of her stores. The health of the crew on the Hartford continues good. The sick list on board the Wyoming had decreased since her arrival in Yokohama, from 44 to 15 cases. The crew of the Wachusett rapidly regained their health after leaving the Yang-Tsee river.

The Admiral communicates to the Navy Department some particulars as to his co-operation with the British Naval Commander on the coast of China, for the suppression of the pirates. The total number of junks destroyed was twenty-two, carrying in the aggregate seventy guns. About ninety of the pirates were killed, and the others were captured, after a severe conflict.

The President has appointed Wm. R. Smith Postmaster at Postmouth, Ohio, and Beason B. Spink, Postmaster at Wooster, Ohio.

Messrs. Hillyer and Lowrey, delegated by the Mississippi Legislature to ask for the pardon of Jefferson Davis, have not had an interview with the President, but have sent to him the resolutions of the Mississippi Legislature and will, to-morrow morning, call upon the President informally to pay their respects.

Order No. 44, issued by General Grant in July last, directs district and post commanders to arrest all persons who have been, or may hereafter, be charged with crimes and offenses against officers, agents, citizens and inhabitants of the United States, and confine them in military custody until the proper judicial tribunals are willing and ready to try them. This order, it has been ascertained on inquiry, has not been revoked by either the President or the Secretary of War, nor has General Grant, as has been stated, done so. It is said, however, that the General has merely written a letter to Major General Sheridan advising that it be not strictly enforced, now that the Civil Rights Bill is in operation, and under its provisions the judicial tribunals are open to all complaints.

New Captain General of Cuba—France and Spain Support the Pope.

NEW YORK, November 13.—Havana advices say that General Manzano, the new Captain General of Cuba, has issued his proclamation to the people and addressed circulars in regard to the absolute determination to suppress the slave trade altogether, and completely root out of the land by strictly and unreservedly carrying out the law to the very letter. It is said, also, that at a private interview with the French and United States Consul, his Excellency was quite vehement in his protestations, and went so far as to assure both functionaries that he would devote all his energies to so plausible and necessary a measure as the early and total extinction of the abominable traffic.

The Berlin correspondenee of the London *Times*, under date of October 28th, says: The Pope has been informed by the Emperor Napoleon that France will uphold his temporal power against all comers, and occupy Rome in his name in case of rebellion or invasion. The bearer of this important message was Cardinal Reisach who lately passed a few weeks in France and was commissioned by the Emperor Napoleon to acquaint the Holy Father with his resolve.

The Spanish men-of-war are still at anchor off Civita Vechea, but not content with placing a number of men and guns at the disposal of the Pope, Queen Isabel has written again to tell His Holiness that nothing would give her greater pleasure than to be allowed to cede him one of her provinces, should her troops fail in maintaining his regal prerogative at Rome. Whose offer the Pope, who finds himself suddenly surrounded by friends, will eventually accept, cannot be foreseen.

Secretary M'Culloch's Report—Letter from Gerritt Smith—Shooting Stars.

NEW YORK, Nov. 13.—The *Express* says: The report of the Secretary of the Treasury will be looked for with interest. It is understood that the Secretary of the Treasury will ask Congress for legislative power to enforce his views, which look to an early rather than a speedy resumption of specie payments. The redemption of legal currency at the rate of four millions of dollars a month will do but little to accomplish this most desirable result, or to check that spirit of speculation which is now the bane of the country. With four hundred millions of greenbacks out, the four millions a month is but as a drop in the bucket, nor can such a slow mode of reduction produce the least effect upon national bank notes forty years to come, for so long as there are more legal tenders than national bank notes, the national banks have no motive to check speculation, or to do business in that kind of way, which is necessary for safety. These views, at least, we understand will be pressed upon Congress by Mr. M'Culloch. The power of redemption which Congress has given him has been used to its very extent.

The *Post* says that observers of the heavens last night counted about seventy of the shooting stars. The predicted shower of meteors is expected to-night, or at an early hour in the morning, but it may not appear until several hours later. The fire bells are to be rung, by prearranged signals, when the spectacle takes place, provided it does happen.

Gerritt Smith is out with a long letter to Prof. Lewis on the condition of the country. He urges pity for the south, not punishment.

Fenian Meeting—Indications of the Meteoric Shower.

PHILADELPHIA, November 13.—A meeting of the Fenian circles in this city was held this evening, for the purpose of choosing a committee to take charge of whatever funds and material of war may be hereafter contributed, and to secure proper headquarters. An address was delivered by Colonel Condon, of New York.

Up to eleven P. M. there are no indications of the anxiously expected meterorie shower. The weather is cool and clear. There was some display at sunset of a peculiar reddish appearance of sky, noticed just before the great meteoric shower of 1833.

About 4 o'clock p. m. a peculiar light, similar to the tail of a comet, appeared above the eastern horizon, which attracted much attention. It lasted about ten minutes and then faded from sight.

The Authorities and the Press.

Since the incoming of the new proprietors of the GAZETTE they have earnestly striven to redeem its somewhat impaired character as a local paper. That they have succeeded in placing it among the first rank of local journals—if not ahead of all—we leave it to our readers to determine. But the authorities of the city, especially the police, take umbrage at our course of prematurely publishing items of vast importance to them, claiming that the GAZETTE thereby frustrates justice and gives warning to offenders that they may escape arrest. Certainly we have as high a regard, as any good citizen should have, for the law, and as honestly desire that offenders may not escape but be brought to justice, but as a reporter, expected to do his full share of duty, we can do not otherwise than publish to the world every robbery, rape, arson, or villainy with which we may be made acquainted. The authorities know little of the honor of the journalist's profession, else they would make a clean confession of their dockets and endeavor to conceal no case from the brotherhood of the quill. Everybody knows we are connected with the press; everybody feels that we are thankful for items; everybody button-holes and tells us anything of local importance he or she knows. If a robbery occurs there are an hundred persons ill at ease till they tell the local of it, and all the star chambers in the world could not place the seal of secrecy upon their tongues. There is a multitude of avenues for securing news, and the vigilant local could as well get his material for news outside of police and other authorities, as through them. If we are told of a crime that has been committed, and requested to preserve for awhile silence on the subject, we invariably do so. On the other hand, if we learn *outside* the same, and are assured by the proper authorities that nothing of the kind has happened, we take pleasure in publishing the facts. We will pursue our course, and adopt no other. Every item we are made [illegible]. We know our duties, and knowing dare maintain. Not under the authority of the mayors, aldermen, or police, we are independent, and will publish anything that comes to our ears, and owe responsibility only to the public at large and our employers. Hence, we trust we shall be no longer taken to task for premature publication of important items.

Sad Accident—A Man Accidentally Shoots Himself

A sad and probably fatal accident occurred yesterday morning at about ten o'clock, of which a well-known colored barber named John Grinnage was the victim. Mr. Grinnage is proprietor of a barber shop on the corner of Anderson street and River avenue, Allegheny. At the time mentioned he was alone in his shop, with the exception of a colored lad whom he had taken as an apprentice. Grinnage had a loaded single barreled pistol in his possession, and when the accident occurred, he was trifling with it, flourishing it about his head in a somewhat reckless manner. The apprentice boy says that he noticed him playing with the pistol in this manner, but was half asleep, and paid little attention to it. Suddenly he was startled by hearing the report of the pistol, and springing up he saw that Grinnage had fallen to the floor. On going to him he discovered that the unfortunate man had received the ball from the pistol in the right side of the head, and was lying insensible with the pistol still in his hand. Dr. Thorn was immediately summoned and in company with one or two other physicians made an examination of the wound. The ball had entered the skull immediately above the right ear, and the probe proved that it had taken a downward course, showing that the pistol had been held high and the muzzle depressed. Yesterday afternoon Dr. Thorn, in the presence of Dr. Hamilton, trephined the skull above the wound, having first removed some of the spiculae from the shattered portion of the skull. In one of the pieces so removed, a portion of the ball was found. The remaining portion had pierced the *dura mater*, and entered the brain. The process of trephining relieved the brain of a considerable portion of extravasated blood and thereafter the patient breathed more freely, and his pulse was somewhat improved. At half-past six o'clock last evening, however, he was still in a comatose state and the physicians stated that he had scarcely one chance in a thousand of recovery.

Mr. Grinnage is a well known man and is very much esteemed by all his numerous patrons. No person of his acquaintance supposes for a moment that the unfortunate man intended to shoot himself, and the physicians in attendance have no doubt whatever, that the shooting was entirely accidental. Two men were in the shop with him only a moment before the accident, and saw him playing with the pistol. The injured man is a widower and has been twice married. He has several children living.

An Old Offender Captured—A Desperate Effort to Escape.

About the middle of last August, John Mooney, the proprietor of a low drinking saloon in the Fifth ward, was returned to Court for selling certain intoxicating beverages without having first gone through the legal formality of procuring a licence. Warrant after warrant was issued, and policeman after policeman was sent after the erring John, but despite all the strategy and enterprise of the police, he succeeded in retaining his liberty, uninterrupted by bolt or bar until Monday night, when officer John Lutz went in quest of him. After searching several dens of iniquity in vain, the officer proceeded to an old dilapidated frame tenement, on Gum street, in the Seventh ward, in the kitchen of which surrounded by some dirty faced female companions, all of whom were in a state of semi-intoxication, he found John, who gave evidence, by his swaggering air, that he was master of the situation, or in other words, was the "lord of the manor." Walking unobtrusively in, officer Lutz tapped John upon the shoulder and informed him of the import of his mission, requesting him to make no disturbance, but to submit with good grace, as nothing could save him from the prison cell. Mooney acknowledge in an instant the futility of all attempts on his part to escape, and stated that he would go with the officer as soon as he changed his clothing, going up stairs for that purpose, while Lutz stood at the foot of the stairway awaiting the time when John would have finished the arrangement of his tedious toilet.

After waiting for a considerable time Lutz was about to go up stairs to learn the cause of the delay, when he heard a noise, as of the hoisting of a window in the rear, and fearing things were not altogether right he rushed to a door leading into the back yard, but to his surprise found it bolted and several women standing with their backs to it, in a menacing attitude, declaring in chorus that the policeman should not pass. A heavy fall in the yard told Lutz that his man had either fallen out of the window or jumped out of it, and forgetting his usual gallantry he pulled the women from their positions and rushed into the yard just in time to see a leg dangling over the fence. With nervous haste he seized the limb, and swinging all his weight upon it had the gratification of seeing Mooney drop at his feet perfectly exhausted by his efforts to escape. He resisted no more after that, and accepting the situation resignedly walked to the county jail, in the dreary confines of which he remains for the present.

An Exciting Chase.—On Thursday morning a citizen laboring under an attack of *mania-po-tu*, and in a nude state, was seen running down Sixth street, Reading, and one of his neighbors after him carrying his pantaloons. After an exciting chase the latter caught him and induced him to put on his pants and go back with him to his home.

An Important Truth.—It is a matter of no little weight to those afflicted with coughs, colds, asthma, or any of those pulmonary diseases so prevalent at this season of the year, to know that there is a remedy prepared by Dr. Keyser, wholesale druggist, of 140 Wood street, that cures these cases very speedily.

Jewelry Store Robbed—Adroit Theft of Diamond Rings.

Last evening, at about five o'clock, a boy ran into the Mayor's office and stated that two boys were then engaged in robbing the jewelry store of Messrs. Johnson & Scott, next to the Eagle Hotel, on Liberty street. He had seen the boys at work pulling jewelry through the windows as he was passing on his way home. They had seen him looking at them, and he was afraid that if he went into the store to give the alarm they would run off, whereas he thought that if he passed on they might continue at work until the police could get to them. So he had ran at the top of his speed to the Mayor's office to give the information. Officers Busha and Barry proceeded at once to the place of the reputed robbery, but the thieves had fled, the proprietors had become aware of their loss, and a crowd was gathered about the store. It was ascertained that the two thieves had taken from the show window two diamond rings, one a cluster of eight stones, valued at $500, and the other a solitaire worth $150.

Their mode of operations as described by the boy who saw them, was a most adroit one. A corner of the lower pane of glass had been broken out, leaving a hole two or three inches in diameter. Above this and some two inches back from the window was suspended a glass tray, on which were placed various articles of jewelry, and among the rest the stolen rings. The smallest thief had bent a long stick so that one end formed a hook, and this he had inserted into the hole in the glass, while the other stood in such a manner as to screen him from observation as much as possible. With his hooked stick the little thief had pulled the two rings off the tray and out at the hole in the window. After capturing this much booty the two adroit depredators had made off, probably having been alarmed by the scrutiny of the boy who had observed them.

This boy described them as minutely as he could after so cursory an observation, and immediate measures were taken to discover their whereabouts. Several officers were placed on the look out and followed different "leads." Officer Robert Glenn of the Nightwatch, was directed to search in the neighborhood of the Varieties Theatre for the smaller boy—one John Cummings alias Grogan, a little reprobate well known to the officers. Glenn discovered the boy at about nine o'clock on Penn street, and discovered him in the very act of picking a gentleman's pocket of his wallet! The youthful expert was conveyed at once to the lock-up.

The description of the larger thief answered well the discription of Alfred Wilson, who became considerably notorious several months ago from the theft of a horse and buggy in front of the Theatre, on Fifth street. Late in the evening officer Scott succeeded in arresting him on High street, and conveyed him also to the lock-up. Subsequently, the boy who had seen the thieves at work, went to the watch house and expressed his decided conviction that the two prisoners were the guilty ones. They were searched, but nothing was found on their persons to prove their guilt. They will probably have a hearing to-day.

Daniel Cummings, a brother of John's, was also arrested as an accessory, and is ascertained to have been connected with a theft of boots from Mr. Russell's shoe store on Pennsylvania avenue. A young man, after the robbery, stated that he saw the two thieves at work, and they discovered him looking at them. The largest one came from the window towards him, and the observer, afraid that the thief meant to hit him, went into an adjoining office and stayed there till the robbers had disappeared!

A Stage Coach Imbroglio.

Yesterday Mrs. Conkling, a widow woman from Nidestown, Indiana, arrived in this city with her three children on her way to Harrisville, Butler county, in this State. She states that she went in a hack from the depot to the office of the Butler Stage Company, on St. Clair street, where she offered the hackdriver a ten dollar bill, from which to take her fare. He went out and got the bill changed, and on his return, after taking out a dollar and a half the woman alleges, to Mr. Walker, the clerk in the office. The latter asked Mrs. Conkling if she wished to pay her fare then to Harrisville, and on her answering in the affirmative, informed her that the fare would be $12 for herself and children one of whom was an infant in her arms. The woman couldn't pay this as the ten dollars was all the money she had. Thereupon Mr. Walker gave her a dollar and a half and stated that he would keep her trunk as security for the remaining portion of the fare. The woman objected to this. The regular fare on the route is four dollars, and she objected to paying full fare for her two little children. At length she repaired to the Mayor's office, and officer Busha returned with her to the stage office to inquire into the matter. After considerable delay and much discussion, it was agreed to carry the woman and her three children through for the sum of eight dollars and so the matter was settled.

Afraid of Murder.

Daniel Shaffer and John Schuler reside in Robinson township, and in close proximity to each other. A few days since the usually placid current of events in the locality named was disturbed by Schuler becoming exasperated at some remark carelessly spoken by Shaffer with regard to the part Schuler played in a little occurrence that took place some time previous to the October election. An angry war of words ensued, in the midst of which Schuler stated, rather indiscreetly, that he would murder Shaffer at the first available opportunity. Fearful that such a sanguinary catastrophe should take place, Shaffer came to this city yesterday and appeared before Alderman Donaldson, where, after being duly sworn, he made known the nature of Schuler's offence, and had a warrant issued for his arrest. Officer Lutz took the accused into custody a few hours after and brought him before the deponent and the magistrate. After considerable talk over the matter the whole thing was amicably arranged by the prosecutor paying the costs and withdrawing the charge.

Large Family Increase.—The colored population of this city is rapidly increasing. The good negroes residing on Gum street, in the classic neighborhood of Hayti, seem to be doing their full duty in contributing to their dusky race. Yesterday the wife of a sable citizen residing on that thoroughfare, presented her liege lord with *four* bright-eyed and lovely little babes—two boys and two girls. At last accounts the mother was doing well—but we cannot imagine how she could do much better. The happy father seriously contemplates establishing an infantile freedmen's bureau.

A Very Mean Trick.—The man who would tie a tin pan to an intelligent and respectable dog's tail is deserving of the most ignoble fate. We thought so yesterday, as we witnessed a noble mastiff dashing down Liberty street with a tin pail attached to his caudal appendage. The poor "dorg" was exercised to a fearful extent, and doubtless the villainous perpetrator of the joke felt no twinge of conscience for having been guilty of the contemptible trick.

Methodist Protestant General Conference Delegates.—The following are the delegates of the Pittsburgh Annual Conference of the Methodist Protestant Church, to assemble in the First Church, (Rev. V. Lucas, pastor,) Allegheny city, to-day: Ministerial—Rev. G. Brown, D. D., Rev. W. Reeves, D. D., Rev. John Scott, D. D., Rev. John Cowl and Rev. V. Lucas. Laymen—John Redman, R. H. Marshall, Wm. Rinehart, Dr. John Sargent and Wm. Miller.

The Best Cough Remedy Known.—There is no doubt about the fact that Dr. Keyser's Pectoral Cough Syrup is one of the most remarkable cough medicines, now offered to the public. Old cases of lung disease, bronchial, and every variety of lung disease, have yielded to its wonderful powers, and we therefore feel no hesitation in recommending our readers who may be afflicted in that way to try it. Sold at 140 Wood street.

Money Lost.—A colored man named Howard, proprietor of a saloon on the corner of Third street and Cherry alley, yesterday lost his pocket book, containing $55 in national currency. He had his wallet out to make change for a person, and when he had done so, supposes that, instead of returning it to his pocket, as he intended, he dropped it to the ground.

Save Your Money.—And save your lungs, by buying a bottle of Dr. Keysers' Pectoral Cough Syrup, at the first onset of a cough. Hundreds of lives might be saved if an earlier resort were had to some simple remedy of this kind. The Dr. informs us that even bad cases of lung disease have been cured by this remedy after everything else had failed. It may be had at 140 Wood street.

Hand Amputated.—A day or two since, a man named Bable, employed in the Eagle Cotton Mills, in Allegheny, had his right hand caught between two cog wheels of the machinery and badly crushed. Dr. Thorn attended him and found it necessary to amputate a greater portion of the hand. The patient is now doing well.

Sale of Machine Shops.—The Wabash *Tribune* learns that the Toledo, Wabash and Western Railroad Company have sold their shops at Fort Wayne to the Pittsburgh, Fort Wayne and Chicago Railroad Company, and purchased ground at Huntington, and are preparing to build new shops at that place.

The Wool Convention, which assembles to-day in Cleveland, will be an all-important affair, and as we have sent out a special correspondent we hope to furnish our readers with a correct account of its proceedings at as early a moment as possible.

Rapidly Recovering.—J. M. Aurent, the boy who was thrown from the Vigilant hose carriage not long since, and broke both his arms, is rapidly recovering, and is now able to be out of doors.

The Stars.

The stars did their falling last night according to announcement; at least, our telegraphic dispatches declared that they were redeeming their character, and carrying out their programme at Boston and thereabouts, and we suppose that they fell here also, though no star falling from any given height, could have acquired a sufficient momentum to pierce the impenetrable stratum of fog, smoke, cloud or whatever it was that obscured the heavens in this locality at the time of going to press this morning. There was no possibility of seeing the steady old stars that belong to the stock company, and appear in their usual places night after night; and as for the travelling stars that promised us such a grand display of ballet gyrations, they stayed persistently behind the gray curtain and showed us not one pigeon wing. Up to three o'clock this morning the only ones who could see any stars here, were the men who could see two stars on one policeman's coat, and the men who had fortunately got a "letter" between the eyes. Perhaps the show was select and we were too far from the Hub to see it any way.

Another Sewickley Outrage.

The *Chronicle* of last evening contains an account of another horrible outrage in the borough of Sewickley. A young girl named Brush, aged about sixteen years, was passing at an early hour on Sunday evening, along a public road in Sewickley, to visit her parents at Knox's Hill, she being employed as domestic in a family in the borough.

While she was proceeding along the road she was overtaken by three men, who immediately seized her, and having gagged or otherwise prevented her from making any outcry, outraged her person. After accomplishing their purpose the villains decamped, leaving their victim in an insensible condition on the roadside.

Some time afterwards a gentleman and lady residing near the scene of the outrage, while returning home from church, discovered the girl, who was still insensible from the effects of the brutal treatment she had received. They immediately procured assistance, and had her removed into a house, where restoratives were applied, and medical aid summoned. Her injuries were found to be of a serious character, and it is feared she cannot survive.

When she recovered her consciousness on Sunday night, she informed her friends of what had transpired, and stated that her assailants were named Hamilton, Kennedy and Lattimer. The girl bears an excellent character in the neighborhood, and is respectably connected.

Thus far no arrests have been made, and no information of the affair been given either to the police of this city or Allegheny, although an information has been lodged against the parties named before Justice Starr, of Sewickley. It is to be hoped that no effort will be spared to trace out the villains who perpetrated the outrage, and those who are found guilty of this crime may safely be supposed to be the same who were guilty of the murder of the unfortunate Caroline Ford, at Sewickley, last July.

Fitzpatrick's Gold Pens.

That the "pen is mightier than the sword" is a well known and indisputable truth; but that Fitzpatrick and Bro., No. 43 Market street, manufacture the best gold pens in America, is not so well known as it should be. They are fast building up a reputation throughout the country, and here, in Pittsburgh, where we have the reputation of being, as a class, the best business pensmen in the world, hardly any other make of gold pens than Fitzpatrick's are used. They are durable and made of the best gold, pointed with genuine diamonds and are sold at prices which defy eastern competition. A full stock is continually kept on hand and persons can give orders for the manufacture of any desirable pen which will suit the hand write. Gold pens out of order are carefully repaired.

Sight Restored—A Remarkable Cure by Dr. Aborn.

I certify for the benefit of those who may be suffering from sore eyes, that I was attacked with disease of both eyes some two years ago. I was led into the rooms of Dr. Aborn, at the Merchants' Hotel, three weeks ago. At the time I was suffering most excruciating pain, and totally unable to open my eyes. The skillful Doctor has entirely cured me; so that I was able to resume my business the middle of last week. I would adjure all who are so unfortunate as to be afflicted with any affection of the eye, to call upon Dr. Aborn.

FRANK CASE, Temperanceville.

Steamboat Robbery.—Charles Palmer, a colored boy, acting as porter on the steamer Leni Leoti, was yesterday arrested on suspicion of having stolen some thirty dollars in fractional currency from the bar room of the boat. Mr. G. M. Franklin, barkeeper on the boat, left the vessel yesterday and came to the city, leaving both the money drawer and the door to the bar room locked. On returning to the boat he found the bar room open and the money drawer robbed of the amount stated. Palmer had been commissioned by Mr. Franklin to purchase some lemons, and the fruit was in the bar room when Mr. Franklin went in, showing that the boy had entered the place. He admitted having been in there. Palmer was arrested on suspicion but no information was made against him and he was subsequently released.

Dr. Keyser's Pectoral Cough Syrup.—It is important to those afflicted with coughs, colds, asthma, Bronchitis or any disease of the pulmonary apparatus, that they bear the fact in mind that the above remedy is the very thing that will cure them speedily, and at the low price of seventy-five cents. Prepared by Dr. George Keyser, wholesale druggist. 140 Wood street.

Let No One Cough Now.—There is no necessity now for coughing all winter, when a few doses of Dr. Keyser's Pectoral Syrup will allay any irritation of the lungs, dissolve the extra mucous collecting in the air passages and lungs, and completely eradicate those dangerous fore-runners of consumption. You may get it at No. 140 Wood street.

Dr. Keyser's Pectoral Again.—We would impress upon our readers the necessity of attending to the first onset of a cough or cold. These seemingly trifling maladies are often the forerunners of more fatal and incurable diseases. Dr. Keyser's Pectoral will check them in their infancy, and oftentimes when dangerous symptoms have set in. Sold at 140 Wood street.

Newspaper Changes.—The Oil City *Register* (weekly) has ceased to exist. Its last number contains the valedictory of W. R. Johns. We wish him success in his new enterprise.

HOW THEY FEEL.

The comments of leading Southern journals upon the late Northern elections may be accepted as indicating the impressions produced thereby on the bulk of the population of the revolted States. The feeling disclosed is not one of disappointment. After the October elections there was every reason to infer that public opinion throughout the loyal States strongly inclined to the side of Congress as against the President and his Policy. However much Mr. JOHNSON may have been deceived by the assurances of THURLOW WEED and other men of like stamp that the Democrats would carry New York and this or that Northern State, Southern journalists do not appear to have indulged in any hallucinations. They calculated more correctly, that what these gentlemen attributed to special or local causes was the product of general causes, which would inevitably lead to like manifestations in all the other Northern States in which elections remained to be held. In this they are borne out by actual facts that have been developed and chronicled.

They now profess one resource of comfort and alleviation which will surely fail them. They estimate that what they term Radicalism—and there is no objection to the name so long as the thing signified is truly discriminated—has about run its course, and will presently disappear. It cannot be denied that certain phases of individual thought, and particular conditions of popular opinion are somewhat analagous to those bodily diseases which last for a definite period, and, if physical strength holds out, then disappear, leaving the recuperative energies to perform their normal functions in restoring perfect soundness. But whoever conceives of the republican movement as one of such, strangely mistakes in his diaganosis of the case. That movement is the result of an aggregation of elements, each most potent, and, in combination, not only unmatched, but indestructible. Now is not the time, and here we have not the space, to enter into an exhaustive analysis of those elements with the view of showing how each is produced, by what affinities they are drawn together, with what efficiency they exert their united, and what undying tenacity is inherent in them. It is sufficient to say that the doctrine and discipline of Liberty in all their ramifications, enter into this movement, which, consequently may be hindered or deflected, but cannot be suppressed or prevented from ultimately achieving the most brilliant and lasting victory. Nor is this all. The strongest possible sanctions of morality and religion, not only blend with the movement, but absolutely permeate it, etherializing its essence, and making it immortal.

It is true that in many portions of the North the accessions already made to the movement are so numerous as to make it almost universal. As much has been gained as can be without annihilating opposition. But in other portions much remains to be done. Berks has yet to be made as Lancaster. Original differences of stock and differences of training have now left them far apart. But in the progress of events, those who now stand for caste and oppression will be brought practically to see and feel that God has made of one blood [illegible] races of [illegible] the earth. And this transformation, with all that accompanies and follows it, will be as absolute at the South as at the North. Herein is to be found the final solution of present troubles, and that solidarity which shall educe out of existing discordances, one people, co-operating heartily to all the ends which constitute national greatness and power.

THE Butler *American Citizen* returns to the question of instructions in a long article, in which it purposes to give the history of the Senatorial election of 1854, for the purpose of showing how, after a great victory to the Whigs in the election of Gov. POLLOCK, the popular wishes were defeated in the intrusion of Mr. CAMERON, and the consequent failure to elect a Senator.

The editor will have to revise his history a little. He is mistaken, we think, in supposing the Whig party to have had the ascendancy in the Legislature at that time, or to have made a caucus nomination of Mr. CAMERON. The support which that gentleman received was from the New *American or Know-Nothing Party*, which had developed so silently and suddenly into power, sweeping Democrats and Whigs alike into its ranks and carrying with it we believe, all the members from even this county excepting Mr. DARSIE, of the Senate. The old Whig organization, however, although greatly weakened by the defection, did not disband, but held its caucusses, and placed in nomination and voted persistently for Mr. WILLIAMS, of Allegheny—the same gentleman who now represents the *Citizen's* own district in Congress. Without their vote, however, the new party could not elect, and as a consequence, the Legislature adjourned without any choice of a Senator. If the Whigs had been in a majority they would, of course, have elected their candidate.

The case thus therefore, as one of the two within the recollection of the Editor, wherein "the party in the majority in the Legislature has been defeated by treachery in the election of a Senator," is nothing to the purpose because there were three parties then, and neither of them in the majority.

The other case is that of the nomination of CAMERON over WILMOT in 1863. But that is still less to the purpose if possible, because the Republican or Union party was not only *not* in a majority then, but the election resulted in the choice of, not of CAMERON, but of BUCKALEW. It cannot be said that in this result the majority was defeated, because the Democrats themselves were in the majority.

FLAKE'S Galveston *Bulletin* contains a statement in a letter from a prominent citizen of Austin, Texas, that Gov. Throckmorton will soon call an extra session of the Legislature, on some pretext, in order that it may ratify the the Constitutional Amendment, and thus prepare the way to complete rehabilitation. Perhaps this is in response to a telegram from President Johnson to the Governor, dated Oct. 30th, in answer to one of the day before. In this the President said:

> "I have nothing further to suggest than urging upon the Legislature to make all laws involving civil rights as complete as possible, so as to extend equal and exact justice to all persons, without regard to color, if it has not been done."

PACIFIC RAILROAD EXCURSION.

Correspondence of the Pittsburgh Gazette.

ST. LOUIS, Nov. 9, 1866.

DEAR GAZETTE:—I arrived in this city yesterday, after the most interesting excursion I ever made. Most of our eastern company are still back in Kansas, probably in the region of Fort Ellsworth, eighty-five miles west of Fort Riley, on the Smoky Fork of the Kansas, and on the line of the Pacific Railway, eastern division. (*Railway* is the term—not Rail-*road*, as I believe I have heretofore given it.) Whether they will succeed in shooting some buffaloes is to be seen; but I feel that *I* acted judiciously in not traveling beyond the rails. So far as buffaloes are concerned, it is very likely that I had better success than they will have; for when I entered the car at Fort Riley, after taking leave of my excellent friends, and seeing them off, I fell in with Governor Lyon, of Idaho, and traveled with him down the valley of the Kansas. Before we parted he presented me with a magnificent buffalo tongue, which he cut from the animal's head and cured with his own hands. He took it from a lot of some half dozen which he was taking to his home on Staten Island, N. Y. I have rarely received a gift that I appreciated more highly. Gov. Lyon is a gentleman of great energy and intelligence; has traveled very extensively through the vast mountain region of the interior; is well acquainted with its wonderful mineral resources. In short, he gave me more information respecting that almost unknown region than I ever received from any other source. I inquired as to the main routes of travel from that territory to the Atlantic States. He said that he had traveled along the valley of the Shohonee (some times called Lewis' river) throughout its entire length, and that it is as favorable a route for a railroad as he had ever seen. Leaving that river near its sources on the western slope of the Rocky Mountains, the line would continue southward, a comparatively short distance, to Salt Lake City, where it unites with the Union Pacific road to San Francisco.

I said, "Governor, suppose you were now at Salt Lake, and wished to go to New York, what route would you take?" "This route, certainly; and that is the very thing I am now doing," was his emphatic reply. He has often traveled from Denver via the Smoky Hill and Kansas route to St. Louis, and knew the country well. The soil, he told me, is very rich all the way to Denver; but for some two hundred miles, owing to deficient rains, it will require more or less irrigation.

On our first excursion to Fort Riley we had Governor Gilpin, of Colorado, in the party. He is a brother of the late Henry D. Gilpin, of Philadelphia, who, it will be remembered, was District Attorney under General Jackson. I was acquainted with this remarkable man more than twenty years ago. He has spent the greater part of his life among the mountains, and, with the exception of Kit Carson, perhaps no man knows them better. His testimony perfectly coincides with that of Governor Lyon. By the way, both these gentlemen are decidedly opposed to "my policy;" and although Governor Gilpin is now governor of the *territory* of Colorado, he is governor elect, by a large majority, of the *State* of Colorado. His mountain life has given him a tinge of enthusiasm: yet he is, for the most part, singularly quiet, grave and retiring. I jocosely remarked to Governor Lyon, when he was going on with his magnificent descriptions, that those mountains made men crazy. "Crazy!" he replied; "I am not crazy. It requires a sight of those grandest works of the Almighty to be found on this earth to set a man's pent-up faculties free." I believe it; and I believe that this road is about to open to the gaze and contemplation of the cultivated and Christian world scenery in comparison with which all that is to be found in Europe, or on our side of this continent, is tame.

My last was written from Jefferson City, where I stopt night before last. In that I gave my impressions of the State of Missouri west of that city. Jefferson City is located on the south bank of the Mis-

enough for the railroad. In other places there are extensive bottoms, all heavily timbered. But a small proportion of the land along the river is under cultivation, although it is surpassingly fertile. The tallest corn I ever saw I saw here. There are very many islands in the river, some of them containing thousands of acres, and still more numerous sand or mud bars, which shift at every flood. In some places the river is so wide that the trunks of large forest trees cannot be distinctly seen on the opposite bank. In other places the channel contracts to half a mile. The Missouri has features of grandeur, but none of beauty. It is quite low now, yet its turbid flood—of which I can give a Pennsylvanian no idea except to tell him to imagine water mixed with coal ashes—rolls on, restless, boiling and vast. Where is the supply of this strange, fine sandy mud, which ages cannot exhaust, nor the lowest water intermit?

Some seventy-five or eighty miles below Jefferson City the Missouri Pacific Railroad leaves the river, and runs diagonally across the country to this city. It runs through no prairie, but through a region very much resembling some parts of Pennsylvania. Part of it is rough and rocky, and decidedly mountainous in its character. For the last ten or twelve miles, as we approach this city, there are beautiful improvements. All the rough region, however, is good land, and admirably adopted to fruit and grape culture.

Of this city I shall not speak until I have seen more of it. This about closes the *narrative* of my expedition. The more difficult part of my work yet lies before me—to speak of this mighty region as a whole, and discuss its social and commercial relations with our own State, and with other places still more remote, by means of railways—those wondrous avenues through which many run to and fro, and knowledge is increased—that mighty agency by which MAN is enabled to yield obedience to the original mandate of his Creator—"Be fruitful and multiply, and replenish the earth, AND SUBDUE IT." C.

THE Buffalo *Commercial Advertiser* states that a grave in Pine Hill Cemetery has been violated, and the body of a daughter fo Col. W. H. Berens stolen. Col. Berens states that his daughter died suddenly of what was supposed to be disease of the heart, in October, 1865, and was interred in the cemetery. On Thursday of last week, Col. Berens concluded to remove his daughter's remains to a lot which he had purchased in the same cemetery. On removing the earth, the cover of the pine box which inclosed the coffin was found to be loose, and upon further examination, the sorrowful fact was revealed that the coffin had been broken open and the body stolen. The upper portion of the lid of the coffin, where it is attached with hinges, had been forced open, a piece of the side split off, and the body drawn out, after which the lid was replaced with apparent haste, and the gave made to assume its former appearance. Col. Berens feels confident that the outrage was perpetrated on the night of the day on which his daughter was buried, as the sodding which he caused to be placed upon the grave on the succeeding day has not since been disturbed.

—A bold attempt to swindle Mr. Jacob Leiby, a well known and extensive distiller of Harrisburg, was made a few days since by a couple of United States detectives. The rogues called at the residence of Mr. Leiby and in a grave manner informed him that certain descoveries of fraud had been made, and his entire establishment must be seized and closed. After they had retired, two well dressed gentlemen called and informed Mr. Leiby that they were responsible attorneys of Philadelphia and could get him out of the difficulty for $30,000 cash. The honest distiller demanded an immediate examination into the affair before proper authorities, which resulted in a complete refutation of the charge of dishonesty towards the Government. The detectives and lawyers hailed from Philadelphia. The game was sharp but did not win.

—A writer in the New York *Sun* gives some statistics of how the city is fed, which are very interesting. He estimates that there are 5,525,000 pounds of beef, 112,500 pounds of mutton, 72,000 of veal, and 2,400,000 pounds of pork purchased in Washington Market every week, costing an aggregate of $1,257,335. In March and April the consumption is less, owing to the abundant supply of fish, also in very hot weather. He estimates that there are 250,000 pints of milk used daily by the inhabitants of that city, 62,000 pounds of butter, and 143,000 ounces of cheese. The grand total paid for meat, milk, butter, and cheese, is $221,584.

Economy of Heat and Consumption of Smoke.

Among the recent and valuable inventions is the furnace of Mr. Liemens, of England, which has excited great interest in Great Britain, where the presumed dearth of mineral fuel has been regarded with apprehension. This invention, however, lays all such apprehensions at rest, for it literally economizes all the heat and all the fuel, and gives no smoke. It has a gas producer, standing apart, in which the coal approaches the fire-place by an inclined plane, where it is heated gradually and parts with all its volatile products, which pass through the fire.

But the fuel itself is slowly consumed; the carbonic acid—an incombustible gas—is converted into combustible carbonic oxide by passing through the thick layer of red-hot coal. Then below the grate a cistern of water gives off steam and each cubic foot of this steam, as it rises and passes through the fire, is decomposed into double that quantity of hydrogen and carbonic oxide, which, being inflammable, increases the temperature. The whole of the heat producers travel through the furnace and enter one of four chambers or regenerators, as Mr. Liemens calls them, which are built in the lower part of the structure. These four are used alternately; while one heats another cools, and the reverse. They intercept the heat, which otherwise would fly from the chimney in waste; and after passing through the gas and air reach the heating chamber, at nearly the heat of that chamber itself: a heat so intense that unless modified, it would fuse the furnace and everything exposed to its action. No smoke escapes; the heat in the chimney is seldom sufficient to singe wood; and the saving of fuel compared with an ordinary furnace is from forty to fifty per cent.

For glass houses, steel smelters, manufacturers of iron, and any trade or process that requires intense heat, the Liemens furnace is essentially suitable. As it economizes all the heat derivable from the combustion of the fuel—fifty or sixty per cent. of which is now lost—it is not likely to be superceded in our day. The yearly saving by means of this furnace is far more than its cost.

Mr. Liemens has lately established a steel melting furnace on his own account, at Birmingham, with perfect success. It heats fourteen melting pots and a muffle, each pot averaging forty-five pounds of mill steel. There are six casts every twenty-four hours, so that the daily production is 3,780 pounds. The gas producer is in use, and the consumption of small coal, at 6s. a ton, is 1½ tons per day, or about 18 cents only per ton of steel. To do the same work under the system of heating furnaces in Sheffield, 3½ tons of coke, at 25s. per ton, are required, the saving being thus upward of £4 per ton for fuel alone. This furnace is also in extensive use for reheating steel elsewhere.

—The Albany *Journal* and *Argus*, newspapers of opposite political opinions, are the joint owners of a cut of an enormous eagle, which eagle makes its appearance on a page of one of the papers after each election. In 1862, the eagle screamed for Seymour in the *Argus*; but every year since it has spread its wings in the *Journal* for the Republican party. It makes its appearance, as usual, in the *Journal*, to celebrate this year's Republican victory in New York State; and is the best specimen of a politician that we know of—always on the winning side.

"Well, said the old chap, "I thought I would go, but I heard that W——n and W——l, and one or two more had backed out of the excursion, and I knew it was of no use for me to try to get away."

THE LAWS OF HEALTH.—It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation, which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in this country, who has not seen the testimony in favor of HOSTETTER'S STOMACH BITTERS, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable anti bilious medicine, a promoter of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of the greatest of all temporal blessings HEALTH, the importance of using the BITTERS as a defensive medicine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the bilious and nervous will find nothing in the whole range of official and proprietary medicines which will afford them the same relief.

NOTICE TO CONSUMERS OF WATER.—The repairs now in progress at the Water Works render it imperative that great economy should be observed in the use of water, the one engine now running being taxed to its utmost capacity. All unnecessary waste of water should be avoided, such as sprinkling streets, washing pavements, drenching clothes in tubs to an inordinate extent, &c. Unless there is proper attention paid to these requirements the city will not have sufficient water for fire, culinary and other necessary purposes. A non-observance of this caution may deprive the offender of a supply of water, as well as entail a heavy one.

The Suffering Freedmen.

The Ladies' Freedmen's Relief Society of Pittsburgh and Allegheny held its first annual meeting in Dr. J. B. Clark's church, Allegheny on Monday, November 11, at 2½ o'clock p. m. Dr. J. W. Clark presided, and read the annual reports of the Secretary and Treasurer. The results of the year's operations were most encouraging. Clothing has been furnished to hundreds of destitute freedmen in different parts of the south. Especially have these ladies done much for the Orphans Home at Nashville. A Board of Managers was appointed for the ensuing year, and very earnest addresses were made by Rev. M. Scovell and F. R. Brunot, Esq. A letter recently received from Mr. Mitchell, Superintendent of the Freedmen's Schools at Nashville, makes it apparent that much should be done immediately for the physical relief of those who have been scourged with cholera. He says "by reason of cholera, many widows have been left destitute and families deprived of support. There is a general stagnation of business, and suffering and want during the coming winter are inevitable. Money is needed to buy medicines and many things which the sick must have. The Bureau has closed its drug store, and if assistance is not obtained hundreds of these people must die. Will not our fiends in the North respond to this cry for help?"

Surely this loyal community will furnish something at once to meet this demand. God has kindly preserved us from the pestilence and crowned the year with plenty. Let every Christian go to work and raise supplies of clothing and money for the destitute. "He that giveth to the poor, lendeth to the Lord," and he will repay him again. Anything addressed to the Rev. J. S Travelli, 37 Fifth street, will be promptly forwarded, and it is earnestly hoped that the Ladies Society, which seems so much in earnest will be liberally supported this winter. BROTHER JOHN.

Frightful and Fatal Accident—Two Men Killed.

A sad accident occurred on Friday last, about half past one o'clock, P. M., at the Merchants Mill of Mr. Caleb Brinton, at Chadds' Ford, on the Brandywine, about seven miles south of West Chester. A portion of the brick wall fell to the ground, above the third floor, letting down several thousand bushels of wheat which were stored in the garners. The wall was of brick twenty-two inches thick. At the time the walls fell, three men were engaged in unloading a car of wheat which had just arrived. Two were in the car and one between the car and the mill. So sudden was the fall that no time was left for the men to escape, and two of them were crushed under the immense weight, and evidently killed instantaneously. The other was crowded to the earth beneath the car and the mill, and escaped death almost miraculously, by the superhuman efforts of the workmen and neighbors who went to the rescue. The names of the two former were John Daley and David Yearsley Cooper, and the name of the latter Lewis Kipe, son of William Kipe, of Chadds' Ford. There were seven men employed at the mill at the time.

A Bold Scamp Outwitted.

Last Friday evening, about seven o'clock, a man entered the house of Mrs. Grier, West Chester. There was no one about the house, but Mrs. Grier's daughter, Mrs. Jesse James, and she was up stairs. Hearing some one enter the house, she went down, and found a man standing in the kitchen, who asked for something to eat. Not liking the man's looks, she informed him that she had no light to go into the cellar to get him anything. He then asked for a shirt. On pretence of getting him a shirt, she went upstairs and gathered up a gold watch and chain, $80 in money, &c., and hid them. She then went down, and told him she could not find a shirt, but if he would come around in the morning she would give him one. Not satisfied with this, he said he would go up stairs and look for himself, and if she made any noise he would shoot her. As soon as he had gone up, Mrs. James ran to the neighbors, and getting assistance, quickly returned to the house, but the scamp after overhauling a bureau, &c., had decamped. It is supposed that he saw Mrs. Grier and her sister leaving the house, as they went out just before he entered, and thinking no one else was about the house, he would have a fine opportunity for stealing.

Highway Robbery.

The Delaware County *Republican* of Saturday says: On Monday night last, about nine o'clock, as Mr. Perkins, who keeps store at Leiperville, was returning from a collecting tour in the townships of Concord and Birmingham, while coming down the Claymont road, about a mile and a half above Claymont, he was met by three men who approached him from behind, and without a word of warning snatched him from his seat in the wagon, and proceeded at once to relieve him of a pocket book containing his money, amounting to nine hundred and seventy-five dollars. One of the villians held one of his arms with one hand, while he put the other over his mouth to prevent him from giving any alarm; another tore open his vest, and took his pocket-book, while a third held his horses. One of them remarked that he was not the man they were looking for, which was replied to by another: "Never mind, we'll go through him." Mr. Perkins thinks they were white men, although disguised by masks. After getting the money, they went into the woods, and no trace of them have since been discovered. Mr. P. had another wallet in his possession, which the thieves did not get. We have seldom recorded a bolder highway robbery in our midst than the one given above.

Larceny of $25.25.

Michael McSteen appeared before Alderman Lynch, yesterday, and instituted suit against James C, Conner for the larceny of $25.50 from the trunk of the prosecutor in the boarding house of Mrs. Reilley, in the Third ward. It appears McSteen and Conner occupied the same chamber although sleeping in different beds. Yesterday morning Michael missed the key of his trunk, which he had left in his pantaloons pocket, and hastening back to his bedroom he found it laying along side of the trunk which had been opened and the money taken from a wallet filled with receipts and letters. His suspicion resting on his room mate he made oath as stated. A warrant has been issued for the arrest of Conner.

Common Pleas.

Yesterday morning, at half past nine o'clock, Court opened, Judge Stowe on the bench. The first case heard was that of the Commonwealth for use of Directors of the Poor vs. Wm. Enstein. Action to recover amount of fine for selling liquor without a license. Verdict for plaintiff for the sum of $50, the whole amount claimed.

Commonwealth for use of Hurd's heirs vs. Wm. A. and Chas. Anderson. Action to recover the amount of a bond given as security for faithful performance of duty as executors by W. A. Anderson for Charles Anderson. The jury in the case had not returned their verdict at the time of adjournment.

A Customer Roughly Handled.

C. J. Croner appeared before Alderman Strain, yesterday, and made oath against Louis A. Kaufman for felonious assault and battery. Kaufman is the *hote* of a tavern called the Golden Sun, No. 668 Penn street, where Croner frequently visits to imbibe some of the exhilarating fluids sold by Louis. During one of those visits, on Monday evening, a quarrel ensued and Croner alleges that Kaufman struck him in the face, knocking him down, kicking him and otherwise maltreating him. Kaufman was arrested and held in $500 bail to answer at court.

Aggravated Assault and Battery.

Anderson Powell, who has figured considerably in the police reports of late, was arrested and brought before Alderman Humbert, yesterday, charged with aggravated assault and battery, on oath of Margaret Halloway, who, in her information alleges that Andrew struck her with a smoothing iron in the back, injuring her so severely, that she was forced to retire to bed, being unable to leave her couch for three days. The dangerous Anderson was arrested, and after a hearing was forced to furnish bail in the sum of $500 for his appearance at the December term of the Criminal Court, to answer the charge.

Painful Accident.—Yesterday morning a laborer named Dugan, residing on Webster street, in the Sixth ward, met with a painful accident on Duquesne way, resulting in the almost total crushing of his right foot. He was assisting to load a large casting on board a flat boat lying in the Allegheny river, when one of the planks upon which it was being rolled broke, and the casting overturned and fell on his foot, crushing it as stated above. He was carried to his home and medical aid summoned. It is feared that it will be necessary to amputate the foot.

The Bell Ringers.—The Spauldings and the Swiss Bell Ringers do not monopolize all the bell ringing talent. Yesterday we saw an Italian musician on Smithfield street who had established an improvement on the hand organ. He had stretched a stap from one tripod to another, and to the strap were attached dinner and tea bells of different sizes. These bells the operator struck one after another, producing music that was "not so bad."

Convalescent.—Samuel Shirley, the young man injured at the fire on Sunday evening, is still in a painful condition, although his convalescence is looked upon as certain.

EARLY TELEGRAMS.

IMPORTANT FROM MEXICO.

The Arrest of Ortega—The Surrender of Matamoras—The Abdication of Maximilian—Bazaine will Declare Himself Dictator.

NEW YORK, November 13.—The *Herald's* Brownsville special gives the following particulars of the arrest of Ortega. The steamship St. Marys, from New Orleans, arrived at Brazos Santiago, on the afternoon of the 3rd inst., having on board General J. G. Ortega and his suite. Immediately on their arrival they were arrested by the commanding officer at Brazos, but will be permitted to return to New Orleans, should they so desire. Upon being informed of his arrest General Ortega simply demanded a copy of the order, and submitted with dignity. A courier from some party in Mexico found in consultation with Ortega after the boat landed has also been arrested.

The *Herald's* City of Mexico correspondent says: Maximilian's abdication was unknown until he was almost ready to start. On the road he met General Castlenau, but only made a passing salute, and would not admit of a conference. Later it was thought he would return to the capital, but in that case Marshal Bazaine had intended to send him under guard to Vera Cruz.

General Castlenau was being treated very cavalierly by Bazaine, who is busy making new contracts for army supplies, and for a length of time which does not look to a speedy departure of the troops. As soon as Maximilian is known to have left the country, Bazaine will declare himself dictator.

The *Herald's* Washington special says: The best posted parties in Washington are of the opinion that the present negotiations will terminate in the United States establishing a protectorate over the Mexican territory.

From New Orleans.

NEW YORK, November 13.—The *Tribune's* New Orleans special says: In view of the fact that a statement is going the rounds of the press to the effect that the President and Secretary of War deny having instructed General Sheridan not to make any arrests under General Grant's order No. 44, dated July 6th, it is but proper to state that that order, together with General Order No. 3, have both been officially revoked by instructions received through General Grant's headquarters.

Half a dozen murders of late Union soldiers have recently been committed in the parish of St. Laundry. The facts were officially brought to the notice of General Sheridan by Governor Wells, but in consequence of the revoking of the orders above alluded to, nothing can be done. There is no longer any protection for Union men in the South, and the show of continuing martial law is now simply a farce.

Settlement of the Northwestern Boundary.

NEW YORK, Nov. 13.—Mr. Rone, of Montreal, who is the coadjutor of Judge Johnson, of Albany, on the commission to arrange indemnities arising under the settlement of the northwestern boundary between the United States and Great Britain, arrived here this evening, and is stopping at Willard's Hotel. The King of Sardinia was suggested as the umpire of the Commission, but the British Government waived any right in that relation, and Judge B. R. Curtis, of Massachusetts, was selected. The interests of the Hudson Bay Company are involved in the decision of the Commission.

Illinois Democracy for Universal Suffrage.

WASHINGTON, November 13.—One of the morning papers here has a special telegram from Chicago, announcing that the Democracy of that State have declared for universal suffrage through the columns of their principal organ, and call upon all their adherents in the late elections to organize under their new banner.

Daniel Newman has been appointed Assessor of the Eleventh District of Pennsylqania

The Jumel Will Case.

NEW YORK, Nov. 13.—Under the decision of the Jumel will case it is understood that $35,500 is to be paid by Mr. Nelson Chase, of which $10,000 goes to the Rev. J. Howard Smith, $10,000 to the church at Carmansville, and the various religious and charitable societies are to get the sums respectively assigned to them in the will, and the balance is divided among the lawyers. The heirs at law get $40,000, and the estate passes into the possession of Mr. Chase.

Indian Captives Released.

NEW YORK, November 13.—The *Tribune's* Leavenworth dispatch says: Five women and children, taken captive by the Kiowa Indians, were delivered to Col. Leavenworth at Fort Laramie, last Monday.

Official Vote of Delaware.

NEW YORK, November 13.—The official vote of Delaware, for Governor, gives Saulsbury, Democrat, 1,232 majority; for Congress, Nicholson, Democrat, 1,380.

JOHN D. BAILEY,

Stock and Real Estate Broker.

FOR SALE—400 Acres of Coal Land, lying immediately upon the Ohio River, 20 miles below Gallipolis, and 135 miles above Cincinnati. On the above tract is a four foot vein of Coal, which, for general purposes, is not surpassed. It is entirely different from the Southern Ohio Coal; contains but little sulphur, forges and cokes well, and for making steam cannot be excelled. The location being about midway from Pomeroy and Hanging Rock, must make it valuable for coaling boats. There is a water front of ¾ of a mile, with a good landing at all stages of the river. An entrance has been run in the hill about 100 feet, track finished to river, together with the necessary fixtures for mining and delivering coal afloat. On said tract is a first-class double Portable Circular Saw Mill together with a Portable Grist Mill, all in good running order, and plenty of the very best oak, ash and poplar timber. Would sell one-half interest if desired, to a party with experience and capital for working same.

Stock and Real Estate Broker,
oc19 No. 102 Fourth street.

FOR SALE—231 acres Coal, including 51 acres Surface, on the East side of the Ohio River, three miles above Wheeling, with right of way to river. The close proximity to a good market at Wheeling, together with the fact that the coal crops out high enough in the hill to be used profitably for rolling mill purposes, makes this a good investment.

PURE CALIFORNIA WINES.

GURNER & CO.,

No. 80 Cedar St., New York,

Offer for sale these valuable Wines, which are gaining public favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and the numerous certificates which have voluntarily been tendered from the most eminent physicians, as well as gentlemen in every position in life, are proof conclusive that these Wines are useful in all cases for which they are recommended.

The following brands are now offered by us. They comprise all the varieties now grown in the State suitable for sale:

WHITE, or HOCK WINE—Of a light straw color, very delicate and fine flavored.

CLARET—A superior wine for table use.

ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine wheys and jellies. It is a fine dessert wine, and well adapted for Communion purposes.

MUSCATEL—A light colored, highly aromatic wine. Very similar to the celebrated Tokay.

PORT—Deep red color, fine flavor, and in many respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner, whose stomachs are out of order and whose systems are generally deranged; mothers weaning children and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; travelers who have occasion to change their water; and all who live in malarious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.

It was used very extensively in 1861, with such general satisfaction that in offering it to the public now we deem it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms in its favor. All that we can say is to guarantee that we will pledge ourselves to furnish an article PURE AND UNADULTERATED.

It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl in particular, with pains in her head, loss of appetite and daily wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well.

The Boston Board is recovering from the semi-panic in coppers—we report as follows: Franklin, 45; Pewabic, 32½, (advance 3½ per share) Quincy, 47½; (advance 2½) Copper Falls, 45. Pittsburgh, 49 bid, 50 asked. Rock Island, 6@7; Minnesota, sales, 16; National, 12 bid; North Western, $3 bid, 4 asked.

Our local market quiet—some inquiry for Bank shares, but no sales reported. The expectation that after dividend day more stock would come on the market has for once been disappointed. The money market is too easy to bring out bank shares. Bridge and Gas stocks are in the same category of some investments, and are rarely disturbed.

Oils are heavy, save in one or two individual cases. Columbia is held at 16¼@16½. Triumph holds firm at the advance, sales of small lots to-day at 1,07. Marine is rather weak—2½ bid, and 2,65 asked.

—In explanation of the difference in the quotation between the old and new issue of the Five Twenties of 1865, we may remark that the old issue have just lost a coupon, the semi-annual interest being payable November 1st, while the new issue bears accumulated interest from July, the dates of payment being divided evenly with the calendar year. The November coupons and registered interest were paid out at New York last week at the rate of $600,000 per day, say, $3,137,000 for five days—while the gold income from customs averaged about $330,000 per day. Since the first of the month about $11,500,000 was paid out, and about $3,000,000 received for customs. The shipments of specie from New York to Europe, on Saturday, were larger than for some time past, the total by all the steamers being $623,190. The total shipments for the week were $1,037,850; previously reported $55,585,777—grand total since January 1st $56,623,627. Receipts of treasure from San Francisco, California, during October aggregated $2,650,000, and $9,000,000 were shipped on government account since 1st of January last. The total exports of treasure from San Francisco from January 1st to date amount to $36,620,184.

—The Comptroller of the Currency announces that bonds have been received for deposit with the Treasurer of the United States to an amount sufficient to secure the entire three hundred millions of circulation of the national banks authorized by law, and no more can be received after this date. The limit has been reached, and hereafter it will be useless to forward bonds, or to apply for increase of capital, or for the organization of new banks, or to do anything with the expectation of getting circulating notes.

—Letters from London state that many new investors are buying United States bonds, being impressed with the conviction that they are the safest and cheapest security in the European market; and there is now a scarcity in the European markets, at the present quotations, holders awaiting for a much higher price.

—The London *Star* notices the current large reduction in our public debt thus:

Perhaps nothing in the whole range of financial topics challenges more interest at present than the remarkable manner in which the United States people are grabbling with the burden of their debt. If it was rapidly accumulated it bids fair to be also rapidly diminished, and the policy of diminishing it to the utmost of their power has never been even a matter of political dispute. They have assumed it to be a duty resting on the present generation to reduce their debt, just as they assumed the duty of fighting to preserve their country from disruption. *The interest bearing debt has been reduced by $138,309,374 during the six months ending October, or £27,261,915—a fact entirely unexampled in the history of the world.* The yearly charge upon the revenues of the treasury has been reduced in the same period by $8,549,160, or £1,709,820. It is expected of the financiers of the Union that the existing debt of $2,249,186,182—a sum when written in dollars is so enormously large as to tax the power of numeration to express it—will be brought down to two thousand millions of dollars by the first of Janury, 1867, or at all events by the 1st of July.

That is, the *Americans look calmly to the possibility of passing off within six months $240,000,000, or £48,000,000, a sum equal to the whole income of this country at no distant period.* The gold values of the import entries make the expectation by no means improbable. Up to the 6th of October the amount of gold paid for import duties had been $238,979,377, or £47,795,875, independent altogether of the interior currency taxation. *These facts are well worthy the study of British statesmen.*

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
TUESDAY, November 13, 1866. }

CATTLE.

There was a very fair supply of cattle this week, not any larger than usual, but considerably in excess of the demand, nevertheless. The market was a very hard one for drovers, the demand being restricted almost wholly to supplying the wants of the local trade, and with unfavorable reports from New York, and no inquiry of any consequence for shipment, prices have still further declined. Prime retailing cattle sold at from 7 to 7¾; good at 6¾ to 6½; medium at 5½ to 6; and common at 4½ to 5. Several small droves or portions of droves were left over unsold—some will be held over for next week, but generally, they will be driven out to East Liberty, and there sold or shipped East. One drover from Western Reserve, Ohio, sent his cattle back home. He alleges that if he had sold his stock, 40 head of cows, at what he was offered, he would have lost over six hundred dollars. Generally speaking, drovers have been losing money for some time past, which is owing to the fact they pay too much for Cattle in the country; but as a class, they are accustomed to "ups" and "downs", and, having made a good deal of money during the last few years, they can afford to part with a little of it.

HOGS.

The retail demand is becoming more active, but, thus far, none of our packers have entered the field, notwithstanding prices are now lower than for several years past. Taking New York as a guide, fair to good cornfed Hogs ought not to be worth more than 6½ to 7c gross. In a retail way, sales were made on Monday at 8 to 9 cts—Emerick & Co. sold about one hundred head at the above range.

SHEEP AND LAMBS.

The market continues quiet and dull, notwithstanding the offerings continue comparatively light. We quote fair to good fat mutton Sheep at 4 to 4½, gross, and extra at 5 to 5¼. Lambs dull, but without quotable change, ranging from $2½ to $4½ per head.

REPORTED SALES OF CATTLE.

Glass & Lafferty retailed 42 head at 4 to 7½—sold 7 head of prime fat steers to B. Grey, averaging 1500, at 7½. Turner sold Glass & Lafferty 17 head of pretty good steers, averaging 1150, at 6¼. Turner sold Hines 12 head bulls at 4½.

John Kerwin retailed 25 head on commission at 5,55—30 head left over. Bought 25 head at 6 to 6½. Hazlewood & Co. retailed 33 head of good Washington Co. cattle at 6½ to 7½. S. Oviatt retailed 16 head at 4½ to 6.

Brown sold L. Rothchilds 17 head of good cattle, averaging 1180, at 7. Jas. Morgan retailed 39 head at 5½ to 7¼. Clark to Evanson 38 head, averaging 1000, on private terms—understood to be 6c. Carr McAllister retailed 114 head at 5,15 to 7,25.

Moonshine & Metz sold B. Grey 27 head of good cattle, averaging 1260, at 7; retailed 12 at 7. P. Hartman sold 14 head at 7¾. L. Rothchilds 39 head at 6 to 7¼.

Marks & Trauman 163 head at 5½ to 7¼. Greenwald & Kahn 81 head at 5 to 7. Merrick & Doud 22 at 5¼ to 6¾. Myers & Needy 145 head at 5 to 6½. Kraus & Haas 81 head.

New York Cattle Market.

NEW YORK, Nov. 13.—The market for Beef Cattle is again heavy, prices being fully 1c a pound lower, and closing still in buyer's favor. The receipts are very large, and drovers, though losing heavily on all sales, have shown a disposition to work off their stock at butchers' own figures. Even at present rates, drovers have no confidence and entertain little hope of any reaction. A few of the very best cattle have sold at 16c, but a good quality were on sale at 15 to 15½c, and fair at 11c, the average being about 13½c. Milch Cows in less active demand and rather easier, and closing about $110@130 for the best, and $80 to $100 for inferior to good. Veal Calves firm, owing to small supply. We quote at 8 to 12c for common to fair; 12½@13c for extra, and a few choice at 13½@14c. Sheep and Lambs less plenty, and have sold at higher figures, but weaker at the close: 5@6½c for common to good, and 7@7½c for extra to very best sheep. We quote at 7@7½ for corn fed live Hogs, and 9½@10½c for do. dressed. The receipts for the week are 7,257 beeves, 75 cows, 1,124 veals, 27,417 sheep and lambs, and 17,435 swine, which compared with last week shows an increase of 647 beeves, and a decrease of 15 cows, 13 veals, 5,306 sheep and lambs, and 5,571 swine.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
TUESDAY, November 13, 1866. }

There are really no new features in the produce markets worthy of special notice. The demand for the leading articles is somewhat restricted, and the operations generally, of a local and unimportant character, while, generally speaking, there has been no material changes in values.

GRAIN—Wheat is dull and neglected, and, in the absence of sales, we omit quotations. Oats a little more active but a shade lower; sale of 600 bush on wharf, at 53; 1800 do do at 55; and 600, in elevator, at 55. Corn is quiet and unchanged; sale of 2 cars new at 70; and 1 car prime old shelled at $1,07. Rye is in demand at $1,20, and but little offering. Prime Spring Barley is quoted at $1,12@1,15—choice at $1,18, an outside price, and a little above the views of most of the brewers.

FLOUR—is quiet and a little dull, buyers holding off in anticipation of a decline, though as yet, prices have undergone but little change. We quote at $12 to $12,50 for Spring Wheat, and $13 to $13,50 for Winter. Sales of Rye Flour at $8 to $8,50 per bbl, and Buckwheat at $4 to $4,50 per cwt.

APPLES—The receipts continue heavy, and with but a limited demand, for the home use and shipment, the market is very dull, with a drooping tendency. We quote in store, in small lots, at $2 to $2,50, for good to prime, and $3 for choice. Sale of 172 bbls "mixed," on wharf, at $1,37½ per bbl.

POTATOES—Prime Jersey sweets are reported steady at $5 per bbl. Prime Peach Blows at $2,50 per bbl.

PROVISIONS—Bacon is dull and nominally unchanged. Lard is quoted at 15 to 15¼, for prime kettle rendered.

HAY—There is a fair demand, and we can report regular sales at $23 to $25. To-day, one firm sold 82 bales prime baled, on wharf, at $25. The supply is light, and receipts limited.

BUTTER—Is in good supply, but prime Roll still sells without much difficulty at 30 to 32. Common packed Butter is very dull, as there no margin for shipment.

EGGS—Scarce and in demand, and fresh packed may be quoted at 30 to 32.

CHEESE—Continues dull but nominally unchanged; we continue to quote at 16 for Western Reserve; 17 to 18 for Hamburg; 19 for Factory, and 20 for Goshen.

CRANBERRIES—Steady with regular sales at $15 per bbl for common, and $20 for cultivated.

SEEDS—Flaxseed is in good demand, and we can report sales at $3 to $3,10. But little doing in Clover or Timothy Seeds.

ONIONS—Selling in a regular way from store at $2,50 to $3 per bbl, as to quality.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
TUESDAY, November 13, 1866. }

CRUDE—The market is firmer under the influence of light receipts, and an improved demand, though prices are not quotably higher—10½ to 11 cts, bbls returned and in bulk, and 15½ to 16, bbls included, according to gravity. Sale 2500 bbls at 10¾; and 750 (45 gravity) at 11. The inquiry at present is mainly for gravities ranging from 40 to 45, and refiners generally, seem willing to pay from ¼ to ½ more for this particular grade of oil, and, consequently, we hear of 40 to 46 gravity being offered at 10½ without finding buyers. It is said that there are buyers "on first water," at 10½, and on the other hand, we hear of parties being willing to sell for that delivery at 10¾, but strange, we have no transactions reported. The demand at present is for spot oil, and the buyers are refiners who have contracts to to fill.

REFINED—There was but little inquiry for bonded oil to-day, and so as we can learn, there is but little offering. Prices, however, have undergone no material change, and we continue to quote at 29 to 29½, free on board cars here, and 35½ to 36, delivered in Philadelphia, and, for the present, these may be regarded as the extremes of the market. Generally, the great majority of our refiners are sold up for November and December; some of them for January, and a few have contracted for February; therefore, there are but very who can contract unless for January or February, and buyers do not seem anxious to operate so far in the dim future. Free oil is dull and unchanged.

ARRIVALS—The following arrivals of oil were reported to-day:

Fisher & Bro	1802	Brewer & Burke	345
Jas. Mawhinney	400	J. E. Strickler	90
Baxter & Ellison	40	Buffum & Kenew	53
W. P. Logan	45	J. J. Young	279
—McKlein	82

MARKETS BY TELEGRAPH.

New York Financial Matters.

NEW YORK, Nov. 13.—The demand for money is very moderate and the supply offering is greatly in excess of the wants of the stock brokers. There is a little more activity in discounts, and prime passes at 6@7 per cent. An effort is on foot to establish a bank with $500,000 capital as a gold clearing house. The project meets with favor in the gold room and already $300,000 have been subscribed. The object is simply to facilitate the business of the brokers and do away with the present delivery system. The bank is to charge a small per centage for making the clearings, and the capital is only wanted as a sort of insurance fund. The Gold market was weaker towards the close, and fell off to 145⅞. Exchange is very dull and the market is somewhat nominal at 109 for prime bankers' bills.

Government Securities were quiet and steady this afternoon at our quotations: Coupons of '81, 114@114¼; Five-Twenty Coupons of '65, 107⅜@107½; August Seven-Thirties, 107⅛@107¼; July do, 105⅞. At the last open Board the Stock market was heavy, and lower prices were made right through the list. At the close, the following were quotations: New York Central, 112⅝; Pittsburgh, 88¾; North Western, 50¼; N. W. preferred, 76⅛; Rock Island, 107¼; Fort Wayne, 107⅝; Ohio and Mississippi Certificates, 33⅛; Cumberland, 40; Petroleum Stocks—Central, 170; Bennehoff, 625.

The *Commercial's* money article says: The decline noticed in the stock list is the result of a bear movement, the bulls having pushed prices up to the highest point. Governments are again firmer, in sympathy with the upward turn in gold bearing bonds, being generally ⅛ higher. State stocks are more active, especially Missouri 6s, which rose 2¼, closing at 89. Money is without any notable change. There is a small inquiry for small loans, and less is done, at 4 per cent.; 5 per cent is the prevailing rate, with exceptions at 6 per cent. Discounts are more active. There is a considerable supply of paper on the street, and the rates rule at 6@6½ per cent. for prime names. Foreign exchange continues very dull, very moderate supply of bills offering, and the demand is quite nominal.

The *Post's* money article says: The loan market is easy, at 4 per cent. on call, with government collaterals, and 5 per cent. with miscellaneous. Stock market feverish, unsettled and dull. Governments steady; 7-30s dull and unchanged. Railroad shares dull and depressed. After the board the quotations were: New York Central, 111⅝; Erie, 83¼; Hudson, 124; Reading, 115⅜; Michigan Central, 112; Pittsburgh, 90¼; Northwestern, 51¼; do. preferred, 77; Toledo, 117; Rock Island, 107¾; Fort Wayne, 108¾.

New York Produce Market.

NEW YORK, Nov. 13.—Cotton declined 1½c per pound; 25 for Middling Uplands, and 37 do Orleans. Flour opened quite firm, but closed quiet and without any decided change at $1,80@10,25 for superfine western, $9,80@11,80 for common to medium extra western, $13,12@13,30 for extra round hoop Ohio, and $12,30@14,00 for trade brands. Rye flour quiet at $6,80@7,25. Corn meal quiet. Whisky quiet and unchanged. Wheat a shade firmer but not very active; sales of 41,000 bushels, at $2,23@2,42 for No. 2 Chicago and Milwaukee. Rye a shade firmer; sales of 14,000 bushels, at $1,30 for old Western. Barley receipts, 83,512 bushels, more active at easier prices; sales of 53,000 bushels at $1,08 for Canada West free, $1,00 for Canada East in bond, $1,22@1,45 for No. 2 rowed State, and $1,25 for No. 4 rowed State. Corn irregular and unsettled, opening firm, afterwards becoming heavy and declining and closing active and advancing; sales of 20,000 bushels at $1,27 for superior, $1,28@1,31 for shipping mixed western in store and afloat, and $1,30 for western white. Oats market heavy; sales of 44,000 bushels at 68@70 for choice and Milwaukee. Rice quiet. Coffee quiet and firm. Sugar dull and nominal; Cuba 11@11¾. Molasses quiet; sales of 30 barrels New Orleans syrup, at 80, and 50 hogsheads at 56@61 for Demarara, and 61@62 for Porto Rico. Petroleum dull, at 22@22½ for crude, and 34@35 for refined in bond. Pork opened heavy and closed decidedly firmer; sales of 68,000 barrels at $24,25@25,50 for regular, and cash for new mess; closing at $25,50; $21,00 for prime; also 500 barrels of new mess, at $25,50 sellers option for July. Beef quiet and steady, at $18,00@18,50 for new plain mess, and $18,00@23,00 for new extra mess. Beef Hams heavy; sales of 100 barrels at 37@41. Bacon inactive. Cut meats dull and heavy, at 12@13 for Shoulders and $14@15½ for Hams dressed. Hogs in fair demand at 9½@10¼, chiefly at 9¾. Lard steady. Butter unchanged.

New York Dry Goods Market.

NEW YORK, Nov. 13.—The Dry Goods market shows but little variations from the extreme quietness of the past week. Some efforts were made yesterday afternoon to attract the attention of buyers, by putting down the prices of some domestic sheetings and shirtings but as yet it shows no effect whatever. There are but very few buyers in market and they are only purchasing in a small irregular way, to replenish assortments. The continued decline in the price of raw material enables holders to accept lower prices for goods, but there seems an absence of demand and a general indisposition to take goods at any price.

Chicago Market.

CHICAGO, Nov. 13.—Flour dull, $9,00@11,75 for spring extras. Wheat advanced 3@5c. closing firm at $2,10@2,15 for No. 1; $1,85@2,00 for No. 2. Corn advanced 5@6c, closing unsettled; 94@95c for No. 1; 84@86 for No. 2. Oats advanced 1c, and closed firm at 41@41½ for No. 1, and 40½c for No. 2. Highwines dull. Mess Pork moderately active at $23,00@23,50. Hogs active and advanced 10c@15c; $6,75@7,25. Freights quiet. Receipts—19,000 bbls. flour; 93,000 bus. wheat; 87,000 bus. corn; 54,000 bus. oats; 1,500 hogs. Shipments—7,000 bbls. flour; 68,000 bus. wheat; 60,000 bus. corn, 18,000 bus. oats.

Buffalo Market.

BUFFALO, November 13.—Flour quiet and unchanged; sales of 600 bbls at $11,25@12 for No. 1 spring, $12,25 for winter red white Canada. Wheat—$3,10 for Amber Canada, and $2,75 for common; sales of 45,000 bu at $1,14@1,16, chiefly at $1,15. Oats—Sales of 13,500 bu Ohio at 60c. Barley—Sales of 2,500 bu Canada at $1,12. Rye quiet and nominal at about $1,20. Pork $27. Lard 15½@16c. Whisky $3,38.

St. Louis Market.

ST. LOUIS, November 13—Flour dull, weak, but not quotably lower. Wheat firmer; Spring slightly better; free unchanged. Corn better, at 70@76c for new, and 90c@1,04 for old. Oats firmer, 50@55c. Pork lower, at $28,00 for new, and $20,25 for old. Bacon—Choice clear sides, 15½@16c. Whisky easier, at $2,32½@2,33.

New Orleans Market.

RIVER NEWS.

The river, we regret to say, continues to recede slowly at this point, with but little over three feet in the channel, by the marks last evening. The rains of last week had little or no effect—possibly it prevented the water from falling faster than it would have done otherwise. The weather yesterday was clear and cool; there was a very heavy white frost visible in the morning.

The Julia, from Portsmouth, Argosy, from Cincinnati, Spray, from Gallipolis, and the Leni Leoti, from Parkersburg, constitute the arrivals. The Amelia Poe is due here to-day, and the Glasgow, from St. Louis, and the Ezra Porter, from New Orleans, ought to reach here by Thursday, if delayed by low water or fog.

The Argosy was to have left for Cincinnati last night, and the Leni Leoti cleared for Parkersburg in the afternoon—a little behind time.

Capt. Hare has named his new boat "Glendale," and the nearer she approaches completion, the better she looks. This boat will be ready for business in a very short time, and we understand that Capt. Hare has secured the services of the veteran Capt. Jas. Mellon, as clerk.

Work is being pushed along energetically on the Great Republic; and also, on the new boat for the Northern Line Packet Company, of St. Louis, the "Dubuque."

The Nora, Capt. Devinney, is announced for Cincinnati and Louisville forthwith, and passengers should bear this fact in mind. The Silver Lake, we believe, is next in turn after the Nora.

The Sherman, Capt. Crane, is filling up steadily for St. Louis, and will be the first boat out for that point. The Armenia, Capt. A. C. McCallum, is announced for New Orleans, as is also the Camelia, Capt. Lytle, for Nashville.

Among others, the following boats were in port yesterday: Spray, Nora, Lorena, Argosy, Sherman, Arabian, Wauanita, Silver Lake, Emma Graham, Columbia, Camelia, Armenia, Leni Leoti and Julia.

The America, en route from Pittsburgh to New Orleans, was at Memphis on the 7th inst., and the Messenger, en route from New Orleans to Cincinnati, was at Vicksburg the same day.

The Minnie, from Pittsburgh to St. Louis, struck a rock at Grand Chain, starting a small leak in her bow. She could have proceeded to Saint Louis, but Captain Shaw thought it more prudent to repair damages, which he did at Cairo. No damage to freight is reported.

The steamer Ben. Campbell left Davenport last Monday for the Lower Mississippi. She has two covered barges in tow, with cargoes of vegetables, in part consisting of 200,000 heads of cabbage, 250 barrels sauer-kraut, 6000 bushels of onions, 3000 bushels of potatoes, 250 barrels of pickles, 3000 bushels of bran.

We take the following from the New Orleans *Crescent* of the 7th:

Upon the levee there was loaded yesterday the first cargo of flour that has been shipped from this city to Portland. It was merely a matter of some 4500 barrels of flour regarded in one light, but looked at in another, it hinted at some coming changes in trade which will not be at the expense of this city. It foreshadows, in other words, the return of Western transportation to its legitimate channels, and is a practical recognition of the fact that the Mississippi will ever be the great highway of the West.

The vessel upon which the flour was being shipped was the C. F. Minot, and anchored near its side was one of the barge boats of the Mississippi Valley Company. The latter was laden with about twice as many barrels as an ordinary vessel could carry. The plan which is now perfected, is to ship cereals in bulk from St. Louis to this city by means of three or four barges, which one steamboat can readily take in tow. Arrived at this port, the barge is laid alongside of a ship that has been previously chartered. This last operation costs about $25 and does away with all drayage.

The barrels are now rolled upon the wharf at a cost of three cents a barrel, and into the ship's hold at a cost of eight cents more, the damage from being rolled in the mud and hauled through the city is avoided, and in twenty-two hours from the arrival of the barges the cargo of flour may be on its way down the river.

It is contended by means of this system of transportation a barrel of flour may be brought from St. Louis and shipped as far North as Portland, at what is said to be a saving of one third cost, and that as soon as this system is fully carried out the immense amount of freight, which now finds its way across the continent will again be transported down the river.

Wheeling *Intelligencer* of Tuesday says: We learned yesterday that Messrs. Goodwin, Seybold, Walker & Gat, have traded the steamer Fallsman for the side wheel steamer Gipsey. The Gipsey was at the wharf yesterday, and during the afternoon left for Pittsburgh. It has not been decided in what trade she will be run.

We clip the following from the Louisville *Courier* of Monday:

The great towboat Ajax came in from New Orleans Saturday, with seventeen empty coal barges for Pittsburgh. She landed at the foot of the falls. The Greyhound came in from Pittsburgh with a light tow of coal, which was sent through the canal for the Ajax. The Warner also departed for Pittsburgh with a tow of empty barges.

THE NEW
Spring and Summer Medicine.
FLUID EXTRACT
SARSAPARILLA,
COMBINED WITH
Iodide of Lime,
PREPARED FOR
G. W. PETTES, BOSTON,
BY
James R. Nichols & Co.
MANUFACTURING CHEMISTS,
MANUFACTURERS OF THE
ELIXIR PERUVIAN BARK
WITH
Protoxide of Iron,
Which has become so favorably known as a
Tonic and Restorative,
By Physicians and Invalids in all parts of the country.

The new preparation, "SARSAPARILLA IN A COMBINATION WITH IODIDE OF LIME," presents one of the most powerful alterative agents in a form capable of exerting full action upon the system, and this in minute and pleasant doses. It is conceded that the alterative, resolvent, or tonic effects of Iodine, are exerted most decidedly when associated with other alteratives, in combination; and the Sarsaparilla seems to fulfill perfectly all the favorable requisitions.

The first effect usually observed when "SARSAPARILLA WITH IODIDE OF LIME" is taken, is an increase of appetite, which proves that it has tonic properties of a marked character. Its alterative effects are manifest in its ready combination with the blood and tissues. Hale, scrofulous women and children become robust by its use, and the vital functions assume a healthy condition.

It is admirably adapted to a large number of chronic or acute affections more peculiar to children. It is suited to them, both by the mildness and efficiency of Medicinal effect and the pleasant, attractive form of the remedy. It may be given for a long period where constitutional influences are desired, and no repugnance, or disinclination to take the syrup, encountered. In White-Swellings, Hip-Joint Disease, and Distortions of the Spine, it should be given persistently, in moderate doses, until relief is obtained.

In the Spring of the Year, and during the Warm Weather,

The accumulation of morbus matters in the system seems to become manifest and very troublesome. Lassitude, Headache, Boils, Costiveness, Loss of Appetite, Pains in the Joints, Indigestion, etc., are very common. Nothing ever devised is better adapted to relieve all of these affections than this new combination of SARSAPARILLA WITH IODIDE OF LIME.

No preparation like it, or which approximates to it as an

Alterative, or Blood Purifier,

has ever before been placed within the reach of invalids. [illegible] combination [illegible] in no respect resembling anything hitherto employed.

The opinion of medical men concerning it, the description of its chemical character, therapeutic value, manner of use, &c., are given in a circular, which may be had at the store of any and all first class druggists.

For sale in Pittsburgh by R. E. SELLERS & CO., AND ALL DRUGGISTS.
